REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested that one skilled in the art would have extruded a profile having a non-uniform cross section (where portions of the cross section were of varied thickness) and embedded an electrical wire therein followed by passing the same through a sizing mold to size the larger shaped profile strip to its finished size in the manufacture of a vacuum hose. The references to Kanao and Finley suggested that those skilled in the art would have provided a non-uniform cross sectional shape (in thickness) for a profile strip being wound to make a hose, however neither embeds an electric wire in the strip followed by passing the same through a sizing die in the manufacture of a vacuum hose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

2. The drawings were received on 12-29-06. These replacement drawings are accepted.
